ABOUT OUR CLUB

WE ARE BASICALLY A FAMILY CLUB THAT ENJOYS THE MYSTIQUE AND PRESERVATION OF ALL CLASSIC 55 - 57 CHEVYS IN ANY FORM OR STYLE YOU CHOOSE. WE PARTICIPATE IN CLUB RUNS, CAR SHOWS AND TOURS CONDUCTED BY OUR CLUB OR OTHER CLUBS. WE ASSIST EACH OTHER IN LOCATING CAR PARTS AND WE WORK TOGETHER TO DEFEAT LEGISLATION THAT MAY BE HARMFUL TO OUR HOBBY.

P R E S I D E N T ' S M E S S A G E

Hello Fellow Car Lovers:

Beth and I are back from our vacation to the East coast. Vermont was Great. Woke up the first morning there was 4 inches of snow. It melted later that day and the sun came out. The views and colors were fantastic. Boston had so much to do we'll have to plan another trip to see it all.

Well, as I understand October's meeting was small. This month we'll have to be busier to get the nominations and voting done. Everyone should come prepared with suggestions. We'll have all the officer positions open and some of the board of director positions to fill. Other possible things to vote on are changing the raffle to 50/50 drawing. See Everyone at 6:30PM at Perko's on Carpenter Rod in Modesto

HOW TO LOCK YOUR CAR AND WHY. .

I locked my car - as I walked away I heard my car door unlocked. I went back and locked my car again

- three times. I looked around and there were two guys sitting in a car in the fire lane next to the store. When I looked straight at them they did not unlock my car again.

. . .While traveling, my son stopped at a roadside park. He came out to his car less than 4-5 minutes later and found someone had gotten into his car, and stolen his cell phone, laptop computer, GPS navigator, briefcase. . you name it. . .

He called the police and since there were no signs of his car being broken into - the police told him that there is a device that robbers are using now to clone your security code when you lock your doors on your car using your key-chain locking device.

The police officer said to MANUALLY lock your car door by hitting the lock button inside the car; that way if there is someone sitting in a parking lot watching for their next victim it will not be you. When you hit the lock button on your car upon exiting. it does not send the security code; but if you walk away and use the door lock on your key chain - it sends the code through the airwaves where it can be stolen.

Know of a great day trip or event coming up that the club members would enjoy contact your local representatives or club officer? Know another club that might invite us to a run?

Note from Roger Nelson:

OK guys this is for you. Can you recognize these tools by their definition:

- 1) A tall upright machine useful for suddenly snatching flat metal bar stock out of your hands so that it smacks you in the chest and flings your beer across the room, denting the freshly-painted project which you had carefully set in the corner where nothing could get to it. (Drill Press)
- 2) Generally used after pliers to completely round off bolt heads. If nothing else is available, they can also be used to transfer intense welding heat to the palm of your hand. (Vise-Grips)
- 3) Used almost entirely for lighting various flammable objects in your shop on fire. Also handy for igniting the grease inside the wheel hub out of which you want to remove a bearing race. (Oxyacetylene Torch)
- 4) Used for lowering an automobile to the ground after you have installed your new brake shoes, trapping the jack handle firmly under the bumper (Hydraulic Floor Jack)
- 5) A tool used to crumple the metal surrounding that clip or bracket you needed to remove in order to replace a 50 cent part. (Pry Bar)
- 6) Son of a b*tch Tool: Any handy tool that you grab and throw across the garage while yelling "Son of a b*tch" at the top of your lungs. It is also, most often, the next tool that you will need.

FAMILY NEWS. by Marilyn Scott

NEWS: Former member John Dunn had heart surgery but unsuccessful. He was sent home with Hospice. A short visit or card I am sure would be appreciated: Last address I had for John and Barbara: 1224 Blue Daisy Way, Modesto CA 95355

EMAIL: from retired charter member #2 - Dave Heffner who currently lives in Roseburg Oregon. Would like to hear from everyone: 201 Hawkeye Ln, Roseburg Oregon 97471 email: daheffner@cmspan.net. Especially interested in our summer activities.

Well, I guess we had alot of things going on last month so had a small attendance at the October meeting. November meeting will be very important for the future of the club, hope everyone can make it.

Words of Wisdom from Maxine. . . .

- 1) My mind works like lighting, One Brilliant flash and its gone.
- 2) It used to be only death and taxes. Now, of course, there's shipping and handling, too
- 3) The only time the world beats a path to your door is if your in the bathroom.
- 4) If you need a shoulder to cry on, pull off to the side of the road.
- 5) As you slide down the banister of life, may the splinters never point the wrong way.

IF MY BODY WERE A CAR.

If my body were a car, this is the time I would be thinking about trading it in for a newer model. I've got bumps and dents and scratches in my finish, and my paint job is getting a little dull. But that's not the worst of it. My headlights are out of focus, and it' especially hard to see things up close.

My traction is not as graceful as it once was. I slip and slide and skid and bump into things even in the best of weather.

My whitewalls are stained with varicose veins. It takes me hours to reach my maximum speed.

My fuel rate burns inefficiently.

But here's the worst of it- - -

Almost every time I sneeze, cough or laugh, either my radiator leaks or my exhaust backfires.

CASH FOR CLUNKERS. I QUALIFY - How about You?
